

2008-2012 Honda Accord Cabin Air Filter Replacement

Cabin Air Filter for 8th Gen Honda Accord (2008-2012) replacement guide.

Written By: ndsol

PARTS:

- [Acura TSX or Honda Accord cabin air filter](#) (1)
-

Step 1 — Cabin Air Filter

- Carefully release the glove compartment and lower it to the footwell.
- Release the catches on the cabin air filter tray.
- Carefully remove the old filter, and note how it is held in the tray.
- Carefully place the new filter in the tray the same as the old filter. The "AIR FLOW" arrow should point down.

Replace the air filter tray and make sure the tabs lock to hold it security in place. Then perform the steps in reverse to close the glove compartment.
