## INTRODUCTION

The rear camera of the Samsung Galaxy Tab E 8.0 can be damaged if the camera is struck by a hard object. This guide shows how to replace the tablet's rear camera, which is attached to the motherboard.

---

### TOOLS:

- [iFixit Opening Tools](#) (1)
  - [Tweezers](#) (1)
-

## Step 1 — Back Panel

- Use the iFixit Opening Tool to pry off the back case, moving the tool around the screen.

⚠ Make sure the device is off and the SD card is removed before taking off the back casing.

## Step 2 — Back Camera

- Use the tweezers to lift the switch connecting the back camera to the motherboard.
- Use your hand to remove the back camera from the motherboard.

To reassemble your device, follow these instructions in reverse order.
