INTRODUCTION

This simple guide will show you how to remove the two speakers from a Lenovo Yoga 710-14KB.

TOOLS:
- T4 Torx Screwdriver (1)
- Phillips #00 Screwdriver (1)
- iFixit Opening Tool (1)

PARTS:

- Lenovo IdeaPad Yoga 710-14 Left and Right Speakers (1)

Step 1 — Back Cover

⚠ Ensure your device is completely OFF before starting this guide.

- Use a Torx T4 screwdriver to unscrew the nine 5 mm screws holding the cover in place.

- Use a Torx T4 screwdriver to unscrew the 8 mm screw in the center.

📌 When, reassembling, make sure not to tighten the screws too much or you may risk cracking the plastic cover.

Step 2

- Use the plastic opening tool to pry the cover up and away from the laptop, starting at one end and working your way around the cover.

ⓘ The cover is large and flat and made of thin plastic. It cracks easily, so make sure not to pry too hard.
Step 3 — Battery

- Use a Phillips #00 screwdriver to remove the four 3 mm screws holding the battery in place.

- (i) Be careful not to cross-thread the screws. Also, don't let the screws fall down into the laptop case.

Step 4

- Use your fingers or an opening tool to slide the battery connector out of its motherboard socket.

This document was generated on 2021-09-03 03:39:29 AM (MST).
Step 5

- Remove the battery.

Step 6 — Speaker

- Locate the speaker's plug and disconnect it.

- Follow the wires connected to the plug to locate the speakers. The left speaker will have red wires, and the right speaker will have blue wires.

Step 7

- Untangle the wires from the plastic hinges of the case to properly lift the speakers out.

To reassemble your device, follow these instructions in reverse order.
