

HP 14-ac159nr Key Replacement

This guide will allow you to replace the keys in the event that something happens to your HP 14-ac159nr.

Written By: Brian Hall

INTRODUCTION

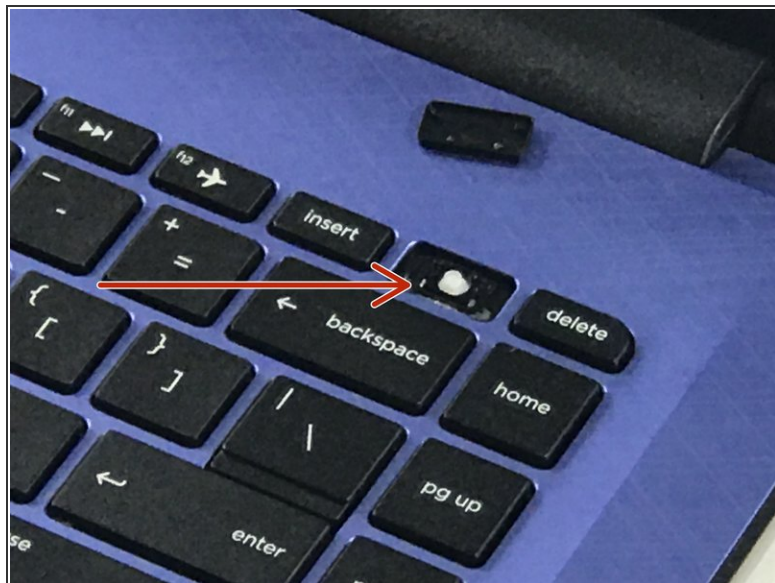

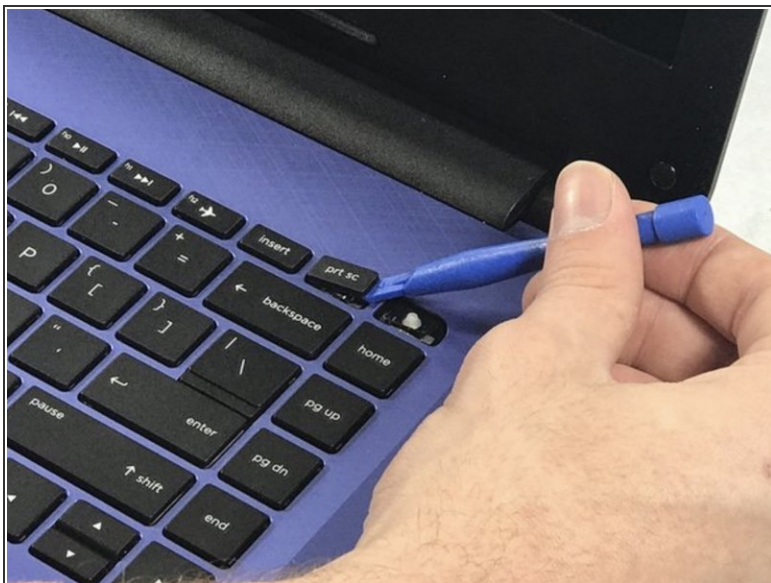

This guide will aid in replacing the keys of the keyboard.

TOOLS:

- [iFixit Opening Tools](#) (1)
-

Step 1 — Key

- Use your prying tool to get under the key and gently pull it upwards to disengage the clips.
- ⚠ Make sure the black scissor switch mechanism stays in place, as it is needed when putting the key back in (in second picture: the black piece surrounding the white plastic dome)

To reassemble your device, follow these instructions in reverse order.
