Step 1 — Battery

⚠ Make sure the laptop is turned off before you start.

● Push and hold the release tab on the right and left toward the center.

Step 2

● Pull the battery out.

Step 3 — Backplate

- Push and hold the release tabs on the right and left toward the center again.

Step 4

- Slide the backplate off.

Step 5 — Hard Disc Drive (HDD)

- Locate the hard drive, opposite the battery across from the wireless card.
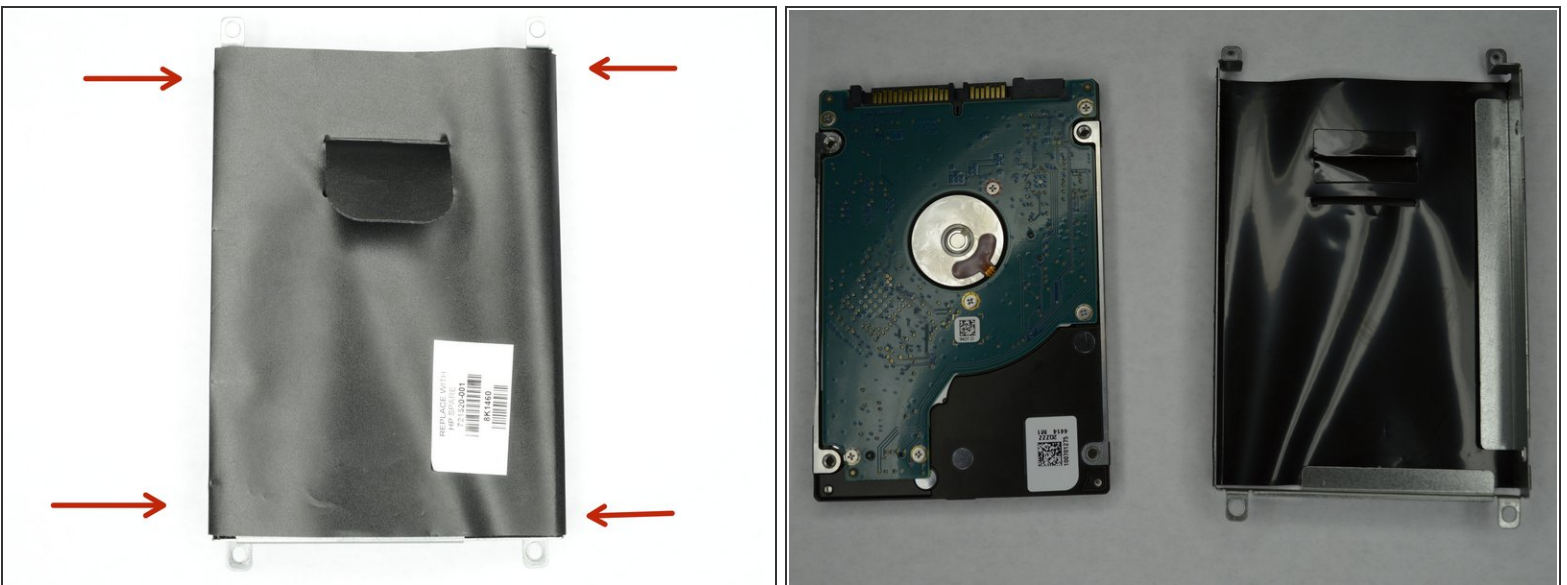

Step 6

- Remove all four Phillips #00 screws that hold the hard drive in place.

Step 7

- Lift up on the outer part of the hard drive.

- Pull the hard drive out.

Step 8

- Remove the four Phillips #00 screws holding the HDD in the HDD cover.

- The HDD should slide out after all screws are removed.

To reassemble your device, follow these instructions in reverse order.
