

Toniebox Opening Procedure

This guide shows you how to open the Toniebox.

Written By: Tobias Isakeit

INTRODUCTION

Use this guide to open your Toniebox.

TOOLS:

- [Phillips #1 Screwdriver](#) (1)
-

Step 1 — Toniebox Opening Procedure

- Put the Toniebox on a flat surface (e.g. a desk or a workbench).
- Apply some pressure and turn the Toniebox counterclockwise to unlock the two clips beneath the bottom plate.
- ① You will hear a "click" when the two clips unlock.

Step 2

- Remove the bottom plate.

Step 3

- Remove the Phillips #1 screw on the bottom of the Toniebox.

Step 4

- Lift the inner part out of the foam housing.
