

iRobot Roomba 551 Battery Replacement

This is a quick explanation on how to replace your Roomba's battery.

Written By: Deborah Newberry

INTRODUCTION

The battery is quite simple to replace in a Roomba, and only requires removing the side brush and bottom plate before it can be accessed.

TOOLS:

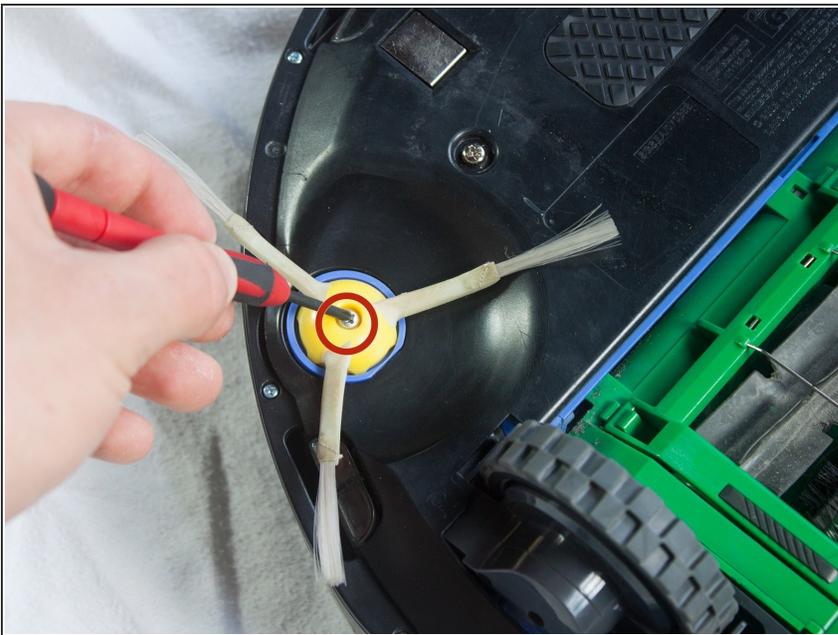

- [Phillips #1 Screwdriver](#) (1)
 - [Phillips #2 Screwdriver](#) (1)
-

Step 1 — Side Brush

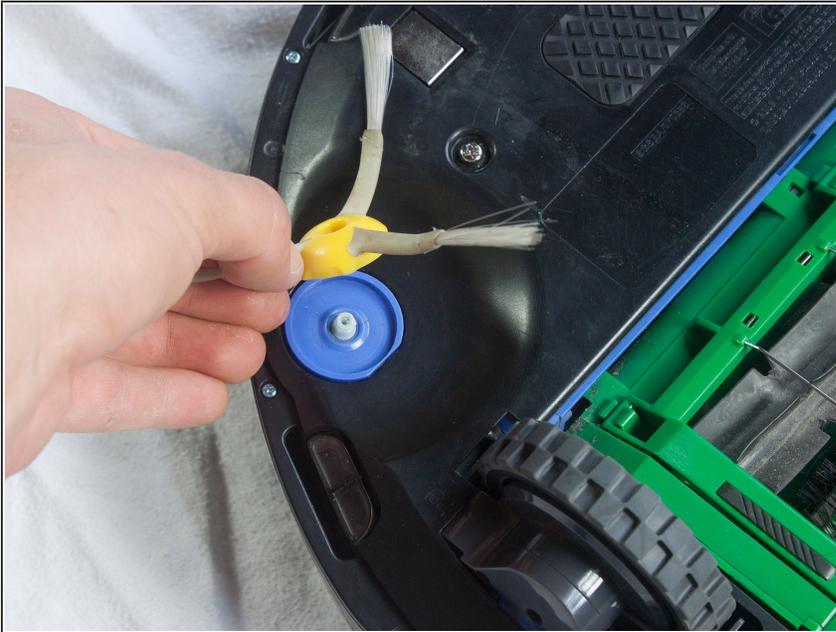

- Place your Roomba upside-down on a hard surface.

Step 2

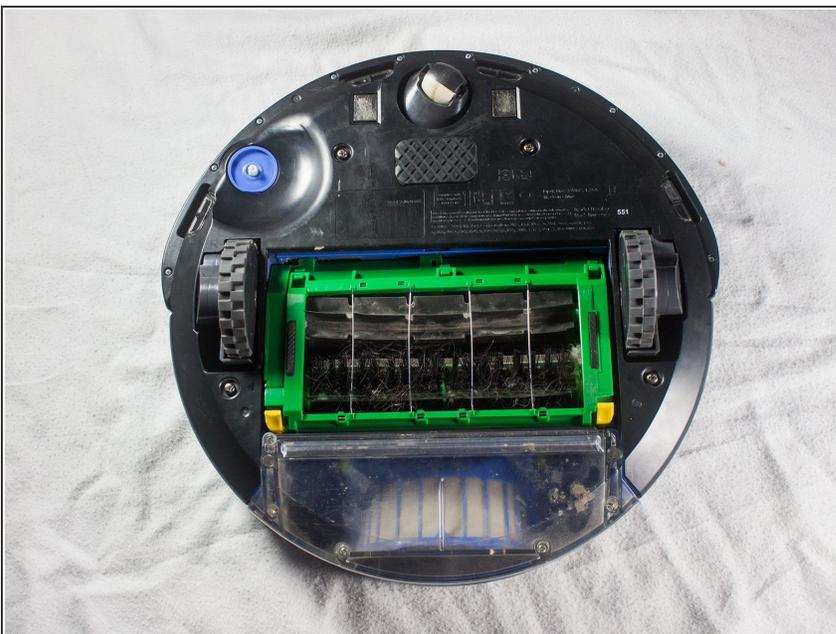

- While holding the side brush in place, use a Phillips #1 screwdriver to remove the 4.5mm screw from the center of the brush.

Step 3

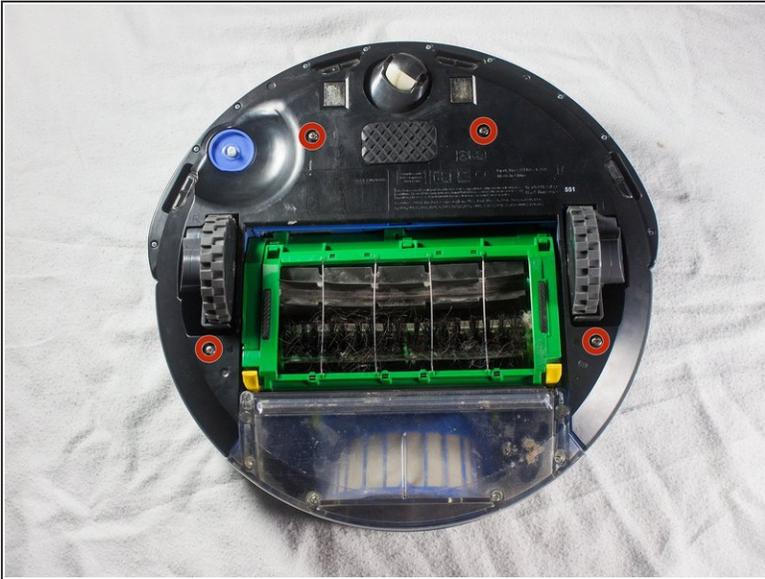

- Gently pull upwards on the brush to remove it.

Step 4 — Bottom Plate

- Rotate the Roomba upside-down so the bottom is facing towards you.

Step 5

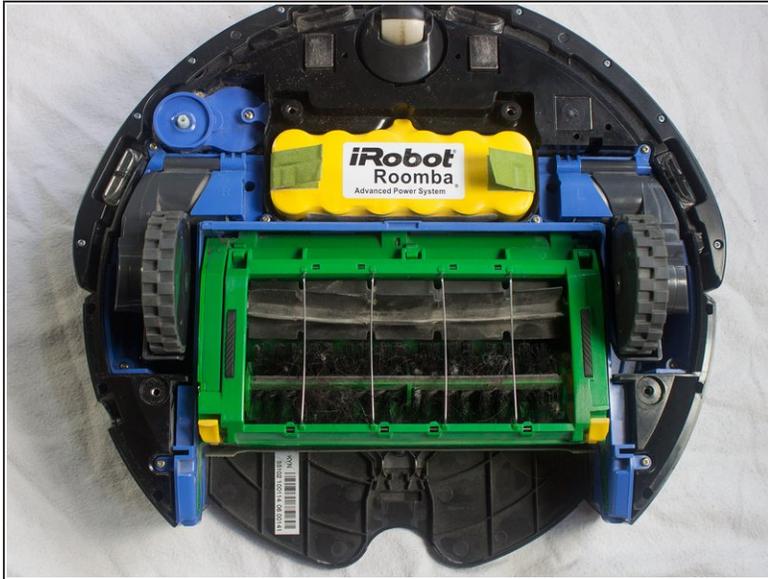

- Using a Phillips #2 screwdriver, remove the captive screws that hold the bottom plate in place.

Step 6

- Carefully lift the bottom plate.
- ⚠ The battery is only secured in place by the bottom plate, and may fall out once the bottom plate is removed.

Step 7 — Battery

- Lift and remove the old battery by pulling the tabs on both sides.
- Gently replace with a new battery.

To reassemble your device, follow these instructions in reverse order.
