INTRODUCTION

In this guide, the reader will learn how to properly remove an empty CO_2 tank and replace it with a new full tank.

⚙ PARTS:

- Full, SodaStream CO2 tank (1)

Step 1 — CO2 Tank

- Remove the back cover of the device. Press in the two gray buttons found on either side, located at the top of the machine.

- Pull back on the cover until it releases from the device. Pull the back completely off.

Step 2

- Grasp your hand firmly around the CO2 tank and twist it in a clockwise motion.

- Once the CO2 tank is free, pull it towards you and lift upwards to remove it from the device.

Step 3 — Installing full CO2 tank

- Insert the full CO2 tank up through the hole, located at the bottom of the device.

- Line up the new CO2 tank with the valve at the top and twist the tank in, using a counter clockwise motion.

Step 4

- Line up the small tab on the back cover with its slot near the bottom of the device.

- Gently push the CO2 tank cover completely back onto the machine.
