

## Repairing 1999-2004 Honda Odyssey Rear window actuator

Quit replacing the rear window actuators at ~\$200 to \$300 each time they fail.

## INTRODUCTION

The actuator failure occurs due to faulty design. Apparently replacement actuators are no better than the originals as they continue to fail. I did this to my Odyssey several years ago after both rear window actuators failed within months of each other. I have not had a single failure since applying this fix.

TOOLS:	DARTS:
<ul> <li>Flathead Screwdriver (1)</li> </ul>	<ul><li>1/2" heat shrink 3" long (1)</li></ul>
<ul> <li>Large Needle Nose Pliers (1)</li> <li>Soldering Iron (1)</li> <li>Phillips #2 Screwdriver (1)</li> </ul>	<ul> <li>2' 18 gauge high temperature insulation stranded wire (1)</li> </ul>
	<ul> <li>Rosin core solder (1)</li> </ul>
	<ul> <li>Two pack of 194LL turn signal/marker lamps (1)</li> </ul>
