Step 1 — Printer doesn't have power

- Make sure the power cord is attached properly.
    - The power cord connects to the printer on the back of the device.
    - When looking at the rear of the printer, the outlet will be in the lower right corner.
        - Ensure the other end of the power cord is firmly plugged into an outlet.

Step 2

- Ensure that the cord is in all the way, as sometimes it can get knocked loose.
