

Unlock Lumia 530 - Any Carrier Network Provider

Unlock Lumia 530 - Any Carrier Network Provider

Written By: ZFix

INTRODUCTION

Unlocking is useful if you want to bring your smartphone to a new carrier.

Make sure the phone will prompt and ask you for a network code when a different or non-supported network SIM card is inserted and the attempts counter is not **0** .

You must send 15-digit IMEI number (tape `*#06#` from the dial app to see it) and the original network provider.

Step 1 — Unlock Lumia 530 - Any Carrier Network Provider

- Power off your Nokia Lumia.
- Insert an unaccepted SIM card.
- Once the SIM Unlock box appears, provide the unique 20-digit unlock code that you received.
- That's all.

To reassemble your device, follow these instructions in reverse order.
