Lenovo Thinkpad X220 Individual Keys Replacement

Written By: Mariska Gramlow

TOOLS:

Metal Spudger (1)

PARTS:

Lenovo Keyboard - 04X0101 (1)

04Y0978 - Lenovo Laptop Keyboard - Genuine (1)

01AX344 - Lenovo Laptop Keyboard - Genuine (1)

01AX322 - Lenovo Laptop Keyboard - Genuine (1)

04Y0856 - Lenovo Laptop Keyboard - Genuine (1)

01AX340 - Lenovo Laptop Keyboard - Genuine (1)

Step 1 — Individual Keys
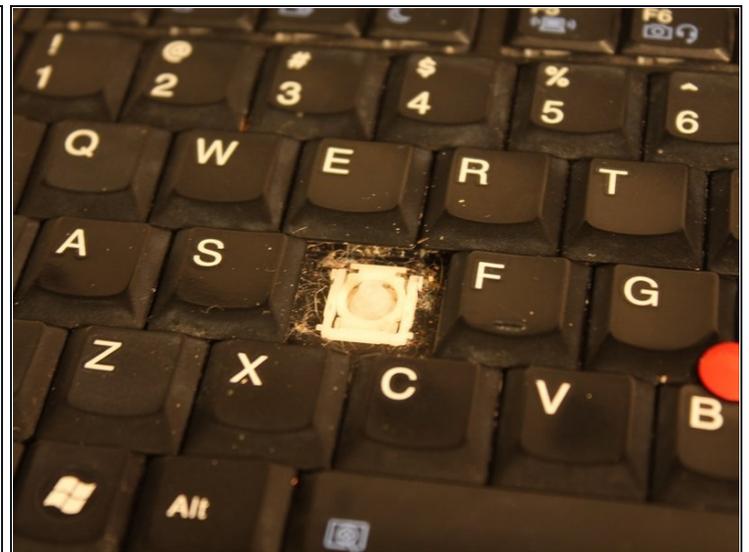

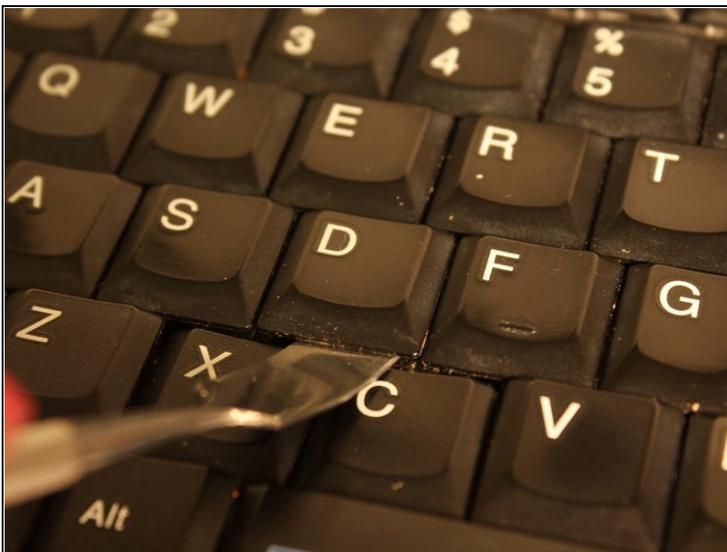

- Open laptop to expose the keyboard and screen.

- Find specific key that needs replacing.

- Grab the Metal Spudger.

- Using slight force, lift one side of the key to pop it off from its base to replace.

- The key should have been easily removable.

Step 2
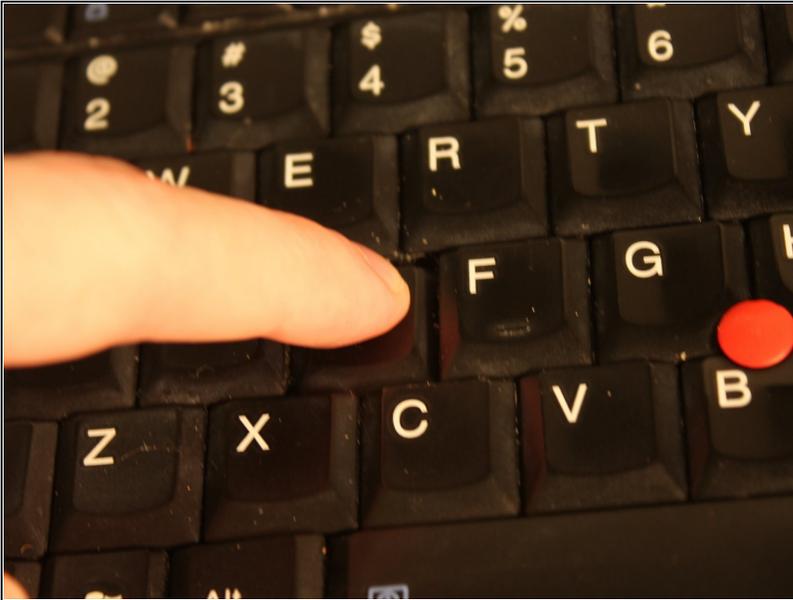

- With the new key replacement, align key with the keyboard and firmly push into place.

- The key should fit perfectly where the old one was removed.

Step 3

- Keyboard key is in place and ready to use.

To reassemble your device, follow these instructions in reverse order.
