

Garmin Nuvi 1490T Front Frame Panel Replacement

Replace damaged frame to have your GPS look new again.

Written By: Ricardo Solis

INTRODUCTION

This repair is easy and quick to fix and only requires a plastic prying tool to get the job done. This repair will have your GPS looking new again.

TOOLS:

- [iFixit Opening Tools](#) (1)
-

Step 1 — Front Frame Panel

- ⓘ Power off your GPS before moving on.
- Locate the crevice that separates the frame from the body.

Step 2

- Carefully insert the plastic prying tool into the crevice to separate the frame from the body.
- ⚠ Applying excessive force can lead to a damaged or scratched display screen.

Step 3

- Slide the plastic prying tool around the perimeter to completely remove the frame.

To reassemble your device, follow these instructions in reverse order.
