Step 1 — Motorola XOOM 2 Media Edition Disassembly

 Power off the device before beginning disassembly.

- Remove six 2.7mm Torx #3 screws.

Step 2

 There is adhesive attached to the underside of the back panel. Gradually lift the panel to avoid bending it out of shape.

- Pry off the back panel using a plastic opening tool.
- Using a plastic opening tool, slide the tool gently around the back cover to lift the cover off.

Step 3

- Pry off the black cover gradually using a plastic opening tool.

To reassemble your device, follow these instructions in reverse order.
